

## Song – Endless Praise (Lyrics)

Passed down through generations, but built on grace,  
give us the courage to reclaim  
roots running far below time, the earth, and space;  
bless us, dear God, with our own faith.

Like that great cloud,  
their voices raised,  
we join the song of endless praise,  
till we ourselves become your saints.

We add our 'hallelujah,' we say, "amen,"  
declare our trust in you again;  
we pray you guide the children, give them the faith,  
so that they, too, may sing your praise.

May ev'ry race and nation, may ev'ry tribe  
in your salvation come alive;  
we'll bow in adoration, open our hearts,  
and tell the world how great you are.
